

Landcover Mapping Up-date Project - July, 2003

The updated landcover for Southwestern Missouri has been completed and is awaiting professional review. The counties contained within the update region include the following:

Barry	Barton	Bates (partial)
Benton (partial)	Camden	Cedar
Christian	Dade	Dallas
Dent (partial)	Douglas	Greene
Henry (partial)	Hickory	Howell (partial)
Jasper	Laclede	Lawrence
Maries (partial)	McDonald	Miller (partial)
Morgan (partial)	Newton	Ozark
Phelps (partial)	Polk	Pulaski
St. Clair	Stone	Taney
Texas (partial)	Vernon	Webster
Wright		

The landcover mapping process is continuing in an easterly direction across the lower half of Missouri, with the inclusion of the scenes containing the Kansas City and St. Louis areas.

Satellite imagery covering the remainder of Missouri has been acquired. Due to anomalies associated with imagery being received from the Landsat 7 satellite (<http://landsat7.usgs.gov/updates.php>), we we
